

Cohesity Data Cloud for AI-powered Data Security

	Core Edition For essential data protection and ransomware remediation	Enterprise Edition (Recommended) For protection against sophisticated cyber threats and rapid response and recovery in critical situations
Enterprise Data Protection Simplify backup and accelerate immutable data recovery on-premises, at the edge, or in the cloud.	✓	✓
Instant Mass Restore Recover VMs instantly with unlimited and fully hydrated snapshots.	✓	✓
Multi-Protocol Backup Target Immutable backup target for apps and data that can be accessed via NFS, SMB or S3 with unified permissions.	✓	✓
Instant NAS Volume Access Make NAS backup datasets immediately accessible to users without any data transfer for faster operational recovery.	✓	✓
AI Operational Assistance Get self-service support with natural language. Speed anomaly investigation and remediation with a cyber recovery assistant.	✓	✓
Digital Jump Bag™ Ensure rapid access to secured critical information and trusted tools needed to initiate incident response and rebuild systems.	✓	✓
Ransomware Anomaly Detection Detect potential ransomware attacks by continuously monitoring backup snapshots for abnormal data changes.	✓	✓
Cohesity CERT (Cyber Event Response Team) Get fast, expert-led recovery from cyberattacks.	✓	✓
Threat Containment Isolate and block recovery of infected data.	✓	✓
Threat Hunting and Monitoring Detect threats early and prevent reinfection with built-in threat intelligence feeds and custom-defined patterns.		✓
Sensitive Data Classification & Monitoring Find sensitive and regulated data and reduce false positives with AI-based data classification.		✓
Cyber Recovery Orchestration Streamline recovery with customizable automated workflows for specific recovery objectives and compliance requirements.		✓

Extend the power of the Cohesity Data Cloud with these add-ons:

Replication	Cyber Vaulting	Data Insights	Cohesity Platinum Service
Improve availability, performance, and business continuity with data replication.	Enhance cyber resilience with an immutable copy of data in a Cohesity-managed vault.	Use AI-powered search to get trusted answers from your backup data.	Resolve issues faster and optimize operations with direct access to a Cohesity Designated Support Engineer (DSE) and Technical Account Manager (TAM).

Cohesity subscription licenses are available as 1, 3, or 5-year subscriptions and include software premium support (24 hours, 7 days a week, 365 days a year). During the subscription period, customers automatically receive software upgrades and new capabilities included in the bundles at no additional cost.
